CLASSICAL SWINE FEVER (CSF)
A THREAT TO THE U.S. PORK INDUSTRY

If you suspect a foreign animal disease:
If you suspect a CSF infection, quarantine your herd. Contact your State or Federal Animal Health Official to report your concerns. Contact information can be obtained by calling (866) 536-7593. You can also call the USDA APHIS Veterinary Services National Center for Animal Health Emergency Management at (800) 940-6524 (24 hours) for assistance.

Pigs infected with CSF may look similar to animals infected with several domestic and foreign animal diseases including African swine fever (ASF), porcine reproductive and respiratory syndrome (PPRS), porcine circovirus associated disease (PCVAD), porcine dermatitis and nephropathy syndrome (PDNS), parvovirus, pseudorabies, and septicemic conditions including erysipelas, salmonellosis, pasteurellosis, actinobacillosis and Haemophilus parasuis infection. When observing animals showing the clinical signs above, suspect CSF and contact your veterinarian.
